Sunshine State Standards

SC.K.N.1.1	Collaborate with a partner to collect information.
SC.K.N.1.2	Make observations of the natural world and know that they are descriptors collected
	using the five senses.
SC.K.N.1.3	Keep records as appropriate such as pictorial records of investigations conducted.
SC.K.N.1.4	Observe and create a visual representation of an object which includes its major
	features.
SC.K.N.1.5	Recognize that learning can come from careful observation.
SC.K.E.5.3	Recognize that the Sun can only be seen in the daytime.
SC.K.P.8.1	Sort objects by observable properties, such as size, shape, color, temperature (hot or
	cold), weight (heavy or light) and texture.
SC.K.L.14.1	Recognize the five senses and related body parts.
SC.K.L.14.2	Recognize that some books and other media portray animals and plants with
	characteristics and behaviors they do not have in real life.
SC.K.L.14.3	Observe plants and animals, describe how they are alike and how they are different in
	the way they look and in the things they do.

Ray Touch Tank Program

An interactive opportunity for students to explore their senses, and learn through their observation skills.

Objectives-

Students should be able to:

- Recognize our five senses and related body parts in comparison to stingrays
- Observe and understand the differences and similarities between stingray species

Standards SC.K.N.1.2, SC.K.N.1.5, SC.K.L.14.1, SC.K.L.14.3

Sea Turtle Program

An entertaining lesson, featuring our 4 rescued turtles, that encourages students to use their observation skills to learn more about sea turtles.

Objectives-

Students should be able to:

- Recognize how sea turtles are alike and different than other reptiles by using observation
- o Recognize the role the sun plays in sea turtle behavior

Standards SC.K.E.5.3, SC.K.P.8.1, SC.K.L.14.2, SC.K.L.14.3

An interactive lesson where students will use their senses, observation skills, and record keeping abilities to draw conclusions.

Objectives-

Students should be able to:

- Collaborate with a partner while observing the animals
- Sort animals into groups
- Describe similarities and differences of the invertebrates

Standards SC.K.N.1.1, SC.K.N.1.5, SC.K.P.8.1, SC.K.L.14.3

Exhibit Hall Program

An activity where students are able to discover the importance of observation to learn.

Objectives-

Students should be able to:

- Collaborate with a partner
- Use their 5 senses to make observations
- Keep records of investigations
- Learn from observation
