

Teen Immersion Experiences 2020

Discover the wonders of Hutchinson Island, a barrier island located between America's most bio-diverse estuary, the Indian River Lagoon, and the Atlantic Ocean. Participants will experience a variety of aquatic and terrestrial ecosystems and interact with Florida Oceanographic's wide array of live marine animals. Instruction and activities will focus on one of two topics below. These daily hands-on, feet-wet experiences are designed to inspire environmental stewardship and a greater understanding of our coastal home.

Expedition: Florida

Explore the wilds of Florida and the fascinating ecosystems that make our state unique. Participants will hike through our mangrove forest, snorkel Dubois Park, go fishing, and much more as they learn about the plants and animals that call these places home.
